HB 251 HD 1 RELATING TO SHORELINE PROTECTION

Senate Committee on
Planning, Land and Water Use

Public Hearing - March 31, 1995
1:00 P.M., Room 405, SOT

By
John T. Harrison, Environmental Center
Charles Fletcher, SOEST
Jacquelin Miller, Environmental Center

HB 251 HD1 would amend chapter 205A to provide that a public notice shall be published in the OEQC Bulletin 15 days prior to certification of a shoreline..

Our statement on this measure does not constitute an institutional position of the University of Hawaii.

This measure has been substantially watered down from its prior version, and in its present form seems merely to codify in Chapter 205A practices reasonably comparable to what presently is in place regarding public notice of shoreline certification. However, inclusion of street address and other geographic identifiers augments current reporting. We note that this recommendation was included in the 1994 report to the Office of State Planning on Shoreline Certification prepared by Dr. Charles Fletcher and Mr. Dennis Hwang.
